Deployment Tools: Jenkins, Docker, Surge, Git Deploy

MANAGERIAL SKILLS

Front-end Development
Agile Method
Code Optimization
UI Enhancement
Stakeholder Management
Documentation & Reporting

PROFESSIONAL EXPERIENCE

Center for Applied Internet Data Analysis   11/2019 - PRESENT
» **UI/UX Designer & Developer**
› Designed and Developed two data-driven applications from ideation to launch, one that detects macroscopic internet outages in near-realtime and one that serves as a resource catalog to help search and filter through research assets.
› Created UI Information Architecture based on stakeholder feedback, developing user personas, and google analytics insight using OmniGraffle diagramming tool to visualize content hierarchy and relationships.
› Built navigable low-fidelity prototype for basic functionality and layout of each template page using Axure UX software.
› Designed high-fidelity mockups for colors, design, and feel of each template page.
› Developed front-end UI with tools for data visualization and exploration related to network monitoring/measurements.
› Managed post-deployment interviews and user-research to help design next iterations and future feature planing.

NTN Buzztime, Inc.   **09/2013 - PRESENT**
» **Web Developer**   **12/2016 - PRESENT**
› Develop UI/UX across several single-page applications and websites while managing the data interchange between servers and users using RESTful/SOAP API calls via http requests.
› Utilize ReactJS including creating forms, managing events, building dynamic reusable components, generating data-driven geolocation maps, and integrating redux for smart components.
» **Digital Marketing Manager**   **08/2015 - 11/2016**
› Developed the front-end of primary website through WordPress CMS with Software Engineer and increased incoming qualified leads by 40% over a four month period.
› Designed and optimized online marketing & advertising campaigns via search marketing, email, and social media.
» **Digital Marketing Coordinator**   **09/2013 - 08/2015**
› Designed responsive landing pages, email templates, banners, and other graphics for use in digital promotions and lead-generation.
› Managed development schedule to optimize deliverability metrics through enterprise-level Marketing automation software.

TECHNICAL PROJECTS
